

# 699S5 Research in the Department of Otoaryngology/Head and Neck Surgery

This course is available to UCI Students Only

---

## **DESCRIPTION**

The student will join in ongoing research projects. The projects include investigation of the auditory and vestibular systems, temporal bone, histopathology, disorders of the laryngopharynx, and reconstructive techniques in head and neck surgery, etc.

## **PREREQUISITES**

Permission of principal investigator (PI), and approval of the Associate Dean of Clinical Education

## **RESTRICTIONS**

Students are responsible for identifying a faculty member who can mentor their project and meet to discuss a research project with a clear research question and objectives. Approval from the Associate Dean of Clinical Education must be obtained prior to beginning a research project.

## **COURSE DIRECTOR**

Students are responsible for finding their own PI

## **INFORMATION FOR THE FIRST DAY**

Who to Report to on First Day: To be determined by the PI.

Location to Report on First Day: To be determined by the PI.

Time to Report on First Day: To be determined by the PI.

**SITE:** UCI Medical Center

**DURATION:** Variable

**Scheduling Coordinator:** To enroll in the course, complete the research application, then email [comsched@hs.uci.edu](mailto:comsched@hs.uci.edu) to make a scheduling appointment.

Students must submit a UCI School of Medicine Student Research, International and Independent Study Application DocuSign.

**Periods Available:** Throughout the year.

**NUMBER OF STUDENTS ALLOWED:** Variable.

**COMMUNICATION WITH FACULTY**

Questions about logistics should be directed to the Course Coordinator. Direct questions, comments, or concerns about the course can be directed to the Course Director. Contact information and office location are at the beginning of this document.

The Course Director is also available to meet in person. Please email **your PI** to arrange an appointment. To ensure that your email will not be lost in the large volume of email received, please use the following convention for the subject line:

SUBJECT: COURSE NAME, your last name, your issue (e.g. XXX, Smith, Request for appointment)

**2. Course Objectives and Program Objective Mapping**

The following are the learning objectives for the 699S5 course. Students are expected to demonstrate proficiency in these areas in order to satisfactorily complete the course. In addition, the extent of a student's mastery of these objectives will help guide the course evaluation and grade.

Course Objective	Mapped UCI School of Medicine Program Objective	Sub Competency	Core Competency
The objective of this course is to provide a guided research experience in the experimental surgery.	A-4. Knowledge of population health, epidemiology principles and the scientific basis of research methods relevant to healthcare	Population Health and Epidemiology	Knowledgeable  Dutiful
	D-1. A commitment to lifelong learning and independently seeking new knowledge and skills in their own recognized areas of learning deficit	Lifelong Learning	

## 4. Major Exams, Assignments and Grading

### **MAJOR ASSIGNMENTS AND EXAMS**

Students will participate in research activities under the supervision of departmental faculty. The research project is approved in advance by the Associate Dean of Clinical Science Education & Educational Technology and the requirements for satisfactory completion of this elective include prior agreement with a SOM faculty mentor who will also provide a written evaluation at the end of the elective, and a written report from the student, which can be in the form of a brief scientific report, a draft manuscript or poster.

### **THE GRADING SCALE**

Medical Students are graded using the following scale: Honors (H), Pass (P), Fail (F), and Incomplete (I). For further information, please review the Grading Policy.

You have 30 days from the date of the grade to appeal any aspect of this grade. Please contact your Clerkship/course Director should you have any questions.

### **Requirements for “Pass”:**

To receive a grade of Pass, students must demonstrate successful performance in all the following areas:

- Knowledge
- Patient Care
- Practice-Based Learning
- Interpersonal & Communication Skills
- Professionalism
- Systems-Based Practice

### **Requirements for “Honors”:**

To receive a grade of Honors, students must demonstrate exceptional performance in all the following areas:

- Knowledge
- Patient Care
- Practice-Based Learning
- Interpersonal & Communication Skills
- Professionalism
- Systems-Based Practice

**Grounds for “Incomplete”:** You will not be issued a grade until all elements of the course have been completed.

**REMEDIATION**

Remediation, if needed, will be designed by the Course Director to suit the issue at hand.

**Grounds for “Fail”:** You will receive a grade of "Fail" if the requirements for passing the course have not been met. Please refer to the [Grading Policy](#) for the impact of the "Fail" grade to the transcript.
