Coordinators:	Jennifer Brouwer Vanessa Valle	949-705-9299	jkbrower@hs.uci.edu vvalle1@hs.uci.edu

DESCRIPTION

This four-week clinical rotation provides an opportunity for hands-on experience for the students in the process of recognizing, diagnosing, and treating mental disorders using the latest neuropharmacological advances in brain research as well as more traditional psychotherapeutic approaches. Each student participates fully in patient care, clinical teaching, and conferences. Students conduct daily therapy sessions, monitor all ongoing lab work, diagnostic tests, medical problems and medication needs and response to medications in their patients. Students give reports to the attending physician during daily rounds and coordinate patient care with ancillary staff such as social workers, occupational therapists and case managers.
