DESCRIPTION
This is a four-week rotation offered at UC Irvine Medical Center, LBVA and Long Beach Miller’s Children Hospital. ICU is offered in medicine, surgery, and pediatrics. Students function as sub-interns, becoming integral members of the ICU team, and serve as primary caregivers under supervision.

PREREQUISITES
This course is intended for 4th-year students enrolled in the undergraduate medical education program at University of California, Irvine School of Medicine (UCISOM).

RESTRICTIONS
This course is intended for 4th-year students enrolled in the undergraduate medical education program at University of California, Irvine School of Medicine (UCISOM).

COURSE DIRECTOR
Dr. Reddy is the course director for 633M MICU rotation.

Kelly Fulford is the course coordinator for 633M course.
INFORMATION FOR THE FIRST DAY
Location/Time to Report on First Day: LBVA Medical Center, Building 126, Third floor, ICU. 7 AM.

SITE: LBVA

DURATION: 4 weeks

Scheduling Coordinator: UC Irvine students please email comsched@hs.uci.edu to make a scheduling appointment.

Periods Available: The time of the course must be pre-approved at least 3 months prior to the start of the course. No exceptions.

NUMBER OF STUDENTS ALLOWED: 2 per rotation block

WHAT STUDENTS SHOULD DO TO PREPARE FOR THE COURSE
Check with Everlin Hernandezjuarez 562-826-8000 x 13294 (Everlin.hernandezjuarez@va.gov) to ensure you are cleared to rotate at the VA

Make sure your TMS training is up to date. It is highly recommended that you bring your certificates of completion training if possible. If you are unsure if your training is current, you can check your TMS account at https://www.tms.va.gov/learning/user/login.jsp

COMMUNICATION WITH FACULTY
Questions about logistics should be directed to the Course Coordinator. Direct questions, comments, or concerns about the course can be directed to the Course Director. Contact information and office location are at the beginning of this document.

The Course Director is also available to meet in person. Please email kfulford@uci.edu to arrange an appointment. To ensure that your email will not be lost in the large volume of email received, please use the following convention for the subject line:

SUBJECT: COURSE NAME, your last name, your issue (e.g. XXX, Smith, Request for appointment)
## 2. Course Objectives and Program Objective Mapping

The following are the learning objectives for the 633 course. Students are expected to demonstrate proficiency in these areas in order to satisfactorily complete the course. In addition, the extent of a student’s mastery of these objectives will help guide the course evaluation and grade.

Perform ATLS.

A-2. Knowledge of the pathogenesis of diseases, interventions for effective treatment, and mechanisms of health maintenance to prevent disease

B-5. The ability to practice effective preventive medicine by identifying, addressing and advocating for strategies to maintain health and well-being, to identify and treat disease early where appropriate and to advise on lifestyle practices

Disease Pathogenesis and Treatment

Patient Management

Skillful

3. Course Resources

TEXTS AND READINGS: SUGGESTED

- Handbook of Critical Care - Jesse B. Hall (September, 2009)
- The ICU Book, 3rd Edition - Paul L. Marino (September - 2006)
4. Major Exams, Assignments and Grading

Official Grading Policy:

A passing grade on the final evaluation requires:

- Daily attendance at rounds
- Attendance and participation in lectures, discussion, and clinical assignments
- Satisfactory scores for aptitudes listed in the clinical evaluations

Students can be eligible for Honors if they receive a satisfactory score on all clinical evaluation categories, have perfect attendance, show exceptional skills in number of clinical categories and prepare a relevant presentation.

In addition, special attention will be paid to:

- Ethical behavior
- Reliability & dependability
- Ability to work with peers and under faculty direction
- Relationships with nurses and other hospital personnel
- Appropriate use of laboratory tests
- Quality of verbal & written communication skills
- Professional personal appearance
- Use & knowledge of medical literature
- Knowledge of student's own limitations

Clinical Performance Evaluations: The clinical evaluations are based on motivation, knowledge of clinical medicine, clinical skills, and personal characteristics. Medical student core competencies include Knowledge, Patient Care, Practice-Based Learning, Interpersonal & Communication Skills, Professionalism, Systems-Based Practice. Your clinical performance will include input from your assigned faculty members and house officers. They use a standardized feedback format that assesses for knowledge, skills, and attitudes. They will give written feedback on this form. Comments will be made available for your Dean’s Letter.

Attendance: A passing grade requires daily attendance at rounds, attendance and participation in lectures, discussions, and clinical assignments, as well as satisfactory scores for the categories listed in the clinical evaluations. Absences will be excused only upon approval by the course director. With prior notification, you are allowed a maximum of three (3) days of absence during your 4-week rotation. In some cases
you may need to use a vacation voucher. You will need to reschedule your rotation for another date if you miss more than 3 days. Any questions or issues regarding your critical care clerkship grade should be presented to your course director and the grading faculty.

**Presentation**: In order to be considered for an Honor’s grade students are expected to prepare a relevant presentation. (Ask your attending how long and what is expected for the presentation).

Any questions or issues regarding your critical care clerkship grade should be presented to your course director and the grading faculty.

**Remediation**

Remediation, if needed will be designed by the Clerkship/course Director to suit the issue at hand.

**Incompletes**

You will not be issued a grade until all elements of the course have been completed.

**Some Suggestions:**

- For all of us, the ICU is the best ILU (Intensive Learning Unit). The diversity and intensity of pathology to which you are exposed is incomparable to any other clinical setting. You are privileged to take care of the sickest patients in the hospital. Cherish the experience and do your best to make the most of it.
- Your faculty are there to make your learning experience as meaningful and effective as possible. If there are problems hampering your growth, approach them.
- Show enthusiasm and interest; you will be taken seriously and will witness reciprocal enthusiasm.
- Try to carry 2-3 patients at each time. You will learn more if you expose yourself to a variety of pathophysiologic processes, so work with your team to try and avoid repetitive cases.
- Every patient on the team is “your patient”. Pay attention to all the patients on rounds. You will multiply your experience.
- Offer to do short 5–10-minute presentations on topics relevant to your patients. The best way to master a topic is to teach it.

**Attitudes**: You are required, at all times, to show:

- Competence
- Compassion
• Professionalism
• Integrity
• Sensitivity
• Respect
• Commitment

You have 30 days from the date of the grade to appeal any aspect of this grade. Please contact your Clerkship/course Director should you have any questions

Requirements for “Pass”:
To receive a grade of Pass, students must demonstrate successful performance in all the following areas:

• Knowledge
• Patient Care
• Practice-Based Learning
• Interpersonal & Communication Skills
• Professionalism
• Systems-Based Practice

Requirements for “Honors”:
To receive a grade of Honors, students must demonstrate exceptional performance in all the following areas and prepare a relevant presentation

• Knowledge
• Patient Care
• Practice-Based Learning
• Interpersonal & Communication Skills
• Professionalism
• Systems-Based Practice

Grounds for “Incomplete”: You will not be issued a grade until all elements of the course have been completed.

REMEDIATION
Remediation, if needed, will be designed by the Course Director to suit the issue at hand.

Grounds for “Fail”: You will receive a grade of "Fail" if the requirements for passing the course have not been met. Please refer to the Grading Policy for the impact of the "Fail" grade to the transcript.
