DESCRIPTION
This introductory elective consists of exposure to general ophthalmology clinics as well as subspecialty clinics in retina, glaucoma, pediatrics, neuro-ophtalmology, oculoplastics, uveitis, and cornea.

PREREQUISITES
UCI students must have successfully completed the basic science curriculum to take the introductory elective. Extramural students must be in their final year of undergraduate medical education at the time of their rotation.

RESTRICTIONS
This course is intended for third- and fourth-year students enrolled in the undergraduate medical education program at UCI School of Medicine.

COURSE DIRECTOR
Dr. Lin completed his medical degree and a National Institutes of Health-sponsored doctoral degree in biophysics at Harvard Medical School in Boston. He completed a residency in ophthalmology at UCI School of Medicine’s Gavin Herbert Eye Institute (GHEI), where he served as chief resident. He also completed a glaucoma fellowship at the institute.
Lin’s clinical interests include optic nerve and aqueous outflow imaging. He has also been involved in the development and evaluation of several emerging glaucoma and cataract surgical devices.

**INFORMATION FOR THE FIRST DAY**
Prior to your first day, contact your supervising resident for information regarding the best place to meet initially. Meeting times may vary based on location and resident’s daily schedule.

**SITE:** UCI Medical Center & Long Beach VA

**DURATION:** 2 or 4 weeks*

***If you are interested in applying for honors for this elective, a 4-week rotation is required. No exceptions. Contact coordinator for additional information.

**SCHEDULING COORDINATOR:** UCI students please call (714) 456-8462 to make a scheduling appointment.

Extramural students enrolled at a U.S. LCME medical school must use VSAS to apply. To apply please refer to this the [VSLO website](https://vslo.org/)

**PERIODS AVAILABLE:** This course is offered throughout the calendar year.

**NUMBER OF STUDENTS ALLOWED:** Each location is able to accommodate two (2) students.
WHAT STUDENTS SHOULD DO TO PREPARE FOR THE COURSE:
Review items list under Course Resources and introductory information packet online or as emailed to them by Coordinator.

COMMUNICATION WITH FACULTY
Questions about logistics, comments, or concerns about the course can be directed to the Course Coordinator. Course Coordinator will direct emails to Course Director as needed. Contact information and office location are at the beginning of this document.

The Course Director is also available to meet in person. Please email Course Coordinator to arrange an appointment. To ensure that your email will not be lost in the large volume of email received, please use the following convention for the subject line:

SUBJECT: COURSE NAME, your last name, your issue (e.g. XXX, Smith, Request for appointment)

Course Objectives and Program Objective Mapping

The following are the learning objectives for the 650A course. Students are expected to demonstrate proficiency in these areas in order to satisfactorily complete the course. In addition, the extent of a student's mastery of these objectives will help guide the course evaluation and grade.

<table>
<thead>

<td>Structure and Function of Organ Systems</td>
<td>Knowledgeable</td>
</tr>
<tr>
<td></td>
<td>A-2. Knowledge of the pathogenesis of diseases, interventions for effective treatment, and mechanisms of health maintenance to prevent disease.</td>
<td>Disease Pathogenesis and Treatment</td>
<td>Knowledgeable</td>
</tr>
<tr>
<td></td>
<td>B-4. The ability to search the medical literature, including electronic databases, and to locate and interpret up-to-date evidence to</td>
<td>Evidence-Based Medicine</td>
<td>Skillful</td>
</tr>
<tr>
<td>To teach to the student the recognition and initial management of ocular injuries and emergencies.</td>
<td>B-3. The ability to articulate a cogent, accurate assessment and plan and problem list, using diagnostic clinical reasoning skills in all the major disciplines.</td>
<td>Patient Management</td>
<td>Skillful</td>
</tr>
<tr>
<td>B-6. The ability to function effectively within the context of complexity and uncertainty in medical care.</td>
<td>C-2. Professional behaviors reflecting compassion and respect for patient privacy, altruism and a commitment to comprehensive, holistic medical care.</td>
<td>Professionalism</td>
<td>Medical Practice</td>
</tr>
</tbody>
</table>
To introduce the students to the profession of ophthalmology as a branch of the practice of medicine.

C-3. Sensitivity and awareness of diverse cultures, health beliefs and social factors impacting patient health and illness.

D-1. A commitment to lifelong learning and independently seeking new knowledge and skills in their own recognized areas of learning deficit.

Knowledgeable, Altruistic, Dutiful

GRADING

Medical Students are graded using the following scale: Honors (H), Pass (P), Fail (F) and Incomplete (I). For further information, please review the Grading Policy.

You have 30 days from the date of the grade to appeal any aspect of this grade. Please contact your Clerkship/course Director should you have any questions.

Requirements for “Pass”: To receive a grade of Pass, students must demonstrate successful performance in all the following areas:

- Knowledge
- Patient Care
- Practice-Based Learning
- Interpersonal & Communication Skills
- Professionalism
- Systems-Based Practice

Requirements for “Honors”: Students interested in applying for honors are required to complete and submit a case study by the end of their rotation. All students, regardless of rotation length, will be graded exclusively on their performance in the clinic and/or operating room.

To receive a grade of Honors, students must be enrolled in a four-week rotation, complete and submit a case study, and demonstrate exceptional performance all the following areas:

- Knowledge
- Patient Care
- Practice-Based Learning
- Interpersonal & Communication Skills
- Professionalism
- Systems-Based Practice

*Grounds for “Incomplete”:* You will not be issued a grade until all elements of the course have been completed.

**REMEDIATION**
Remediation, if needed, will be designed by the Course Director to suit the issue at hand.

*Grounds for “Fail”:* You will receive a grade of "Fail" if the requirements for passing the course have not been met. Please refer to the Grading Policy for the impact of the "Fail" grade to the transcript.
