

# Accreditation Communication

The Liaison Committee on Medical Education (LCME) will be performing an on-site survey visit for our next reaccreditation cycle from January 26-29, 2025. The LCME is the national accrediting organization for U.S. medical schools. UCI School of Medicine received its most recent full eight-year reaccreditation in 2017.

## News & Events: 2024 Match Day and Simulation Instructor Course

Another successful Match Day ceremony was held on Friday, March 15 on the lawn of the Medical Education Building. This is the special day when graduating medical students across the country find out where they will be going for the residency. Watch the [recap video and share in their celebration](#) of our own students as they find out where they will begin their journey as doctors.

On Tuesday, May 7, the [Medical Education Simulation Center](#) will host a full-day Simulation Instructor Training Course. This is a great, hands-on opportunity for those interested in using simulation as a teaching tool to learn about the theory of patient simulation, debriefing strategies and curriculum design. This course is mandatory anyone who would like to teach simulation sessions. To register, use the [training course registration form](#). For more information, contact: [mededsim@uci.edu](mailto:mededsim@uci.edu).

Follow the Zot Quality Improvements in the [monthly Medical Education newsletter](#) for additional updates that support our students.

## LCME Spotlight Standard 4: Faculty Preparation, Productivity, Participation, and Policies

LCME Standard 4 focuses on the faculty who support the institution's educational, research, and service goals. UCI has clear policies and procedures on faculty appointments and including ones to ensure that School of Medicine faculty receive regular formal feedback on their performance and their progress toward promotion. Faculty can learn about these policies and procedures on the [Faculty Development website](#) as well as through the Monthly on Mondays faculty development webinar and discussion series hosted by the Office of Academic Affairs.

Programming related to teaching and assessment skills including curricular design, program evaluation, student assessment methods and instructional methodology can be found in the following resources:

- [Monthly on Mondays series](#) hosted by the Office Academic Affairs
- [Quarterly faculty development series](#) (open to both residents and faculty) hosted by the Office of Graduate Medical Education
- [Teaching and assessment skills resources](#)
