

# Train New Trainers

## Primary Care – Child and Adolescent Psychiatry Fellowship

*Optimizing the Pediatric Workforce*

**The Train New Trainers (TNT) Primary Care – Child and Adolescent Psychiatry (PC-CAP) Fellowship is a year-long clinical education program for pediatricians and primary care-oriented providers who wish to receive advanced training in primary care-based child and adolescent psychiatry.**

### **Who Benefits?**

The program is designed for primary care providers working in Pediatrics, Internal Medicine, Family Medicine, Emergency Medicine, or Neurology. Past fellows have included DOs, MDs, NPs, and PAs.

### **Curriculum**

The following is an outline of the curriculum, developed by the UCI faculty. It includes more than 45 required hours of training, resulting in a certificate of completion from UCI School of Medicine:

- Two weekend in-person teaching sessions (approximately 25 CME hours)
- Live, case-based discussions with a focus on integrated child and adolescent psychiatry and general practice twice a month (at least 20 CME hours)
- One hour per month of small group mentoring sessions with a PC-CAP fellowship faculty mentor
- Complimentary lifelong learning for alumni

### **Goals of TNT PC-CAP Fellowship**

Trainees will learn:

- How to complete an evidence-informed & efficient psychiatric interview in the busy primary care/ medical setting
- How to effectively diagnose and treat commonly encountered psychiatric conditions such as mood, anxiety, psychotic, and substance misuse disorders
- How to teach these principles to their primary care colleagues

\*This is not a traditional or Accreditation Council for Graduate Medical Education (ACGME) approved fellowship.

## Tuition

- \$15,500 per fellow OR applicant may be eligible for a full scholarship. Upon acceptance to the PC-CAP Program, a scholarship application will be sent with instructions for completion and submission for consideration by the Department of Health Care Access and Information (HCAI).

## Department of Health Care Access and Information (HCAI) Scholarship

You must meet the minimum requirements to be considered:

- Be currently employed or have accepted employment as a primary care provider (MD, DO, NP, PA) in the following specialties: family medicine, internal medicine, OB/GYN, or pediatrics
- Work at a qualifying practice site in a Federally Qualified Health Center/lookalike, Health Professional Shortage Area – Primary Care (HPSA-PC) or Primary Care Shortage Area (PCSA) in California
- Work at a practice site with at least 50 percent of patients from a medically underserved population (Medi-Cal, uninsured, or beneficiaries of another publicly funded program that serves patients who earn less than 250 percent of the federal poverty level)
- Currently serve or plan on serving children and youth 25 years of age or younger

*“I had a great learning opportunity, during residency my training in adolescent mental health was very limited. Now working as faculty, I am able to apply what I learned from this fellowship and I am able to teach my residents as well.”*

-Diana Howard, MD, AAHIVS, 2023 Cohort

*“UCI TNT Fellowship program provides the knowledge and builds my confidence to bring back in my practice. My patients have better assessment and prompt initial necessary treatment until being seen by mental health specialists. Moreover, I become a helpful resource for my peers when they encounter patients with common mental health conditions in family practice. UCI provides a great Fellowship Program.”*

- Linh Dang, NP, 2022 Cohort
