Review of Submitted Material

Careful review of materials/dossier prior to submitting to the Dean's office will help to avoid/minimize a delay and/or return of the file to the department. Faculty members are ultimately responsible for signing off the review materials.

- The role of the **faculty member** is to input all the information in AP-10, prepare personal statements and provide CV, teaching evaluations and publications.
- The role of the **analyst** is to review and make sure that the information provided is within the review period, and complies with policies and procedures

Recent changes!

- **Achievement Relative to Opportunity (ARO)**
 - Merit and promotion process recognizes the significant impact on the ability of faculty to perform all aspects of their work, including research, teaching and service, in times of crisis.

- **Inclusive Excellence in Review Files**
 - **No separate diversity statement.**
 - New AP-10 and AP-10DD have “**Contributions to Inclusive Excellence**” rather than “diversity activities related to...”----**please be succinct and list specific activities!**
- **Guidance on “Reflective” Statements**

Achievement Relative to Opportunity (ARO)

Merit and promotion process recognizes the significant impact on the ability of faculty to perform all aspects of their work, including research, teaching and service, in times of crisis. Some examples of the types of non-confidential information that might be provided:

- Changes in teaching workload relative to department or school norms, or teaching overloads undertaken due to impacts on other faculty;
- Additional efforts required for student advising and mentoring beyond the regular expectations;
- Lost opportunities for scholarly and professional recognition both on campus and professionally;
- Loss of specific scholarly activity or funding opportunities due to restricted travel, closed facilities, or lack of access to research subjects;
- Constraints on time to devote to research due to **significantly increased caregiving responsibilities or health issues, not to be confused with medical leave.**
- For grants that have been awarded then reduced or cancelled, list them on AP-10 as **Amount Awarded (\$1,000,000), Amount Received due to Post-award Reduction (\$500,000)**
- ARO guidance will now be integrated into each section of research, teaching, and service guidance. [Guidance for Faculty on Preparing Files](#)

Self Statements=Personal Statements=**Reflective Statements!**

Put your accomplishments in context! discuss ARO!

3 pages **each** for CAP-delegated

2 pages **total** for Dean-delegated

- **Reflective teaching/mentoring statement:** Analyze your teaching/mentoring activities during the review period objectively, highlight any teaching innovation, and address negative teaching evaluations (**important!**).
- **Research statement:** focus on providing context (explain the significance of your study in the field, define your contribution in team science, etc.) rather than going into details of your projects.
Describe any unfunded clinical research/IRB.
- **Service statement:** Briefly summarize your service, elaborate if a certain committee activity requires a lot of hours/work!
- **No more separate inclusive excellence statement.**

Reflective Statements

What's helpful for reviewers

- Use the reflective statements to address any areas of concern or particular importance within Research and Creative Activity, Teaching and Mentoring, and/or University, Professional and Public Services Activities.
- Engage meaningful student comments in reflective teaching and mentoring statement.
- In your Service statement, please distinguish between campus, departmental, and professional service areas.

 - Important to publish **as a first or senior author – corresponding author status is crucial**
 - Middle authorship should be documented/explained (subject matter expert, supply of special resource, expert analysis of dataset). Do not assume peers will understand your role.
 - Evidence of impact: author- or paper-level metrics (*not required but can be used*)
 - **H-Index** in Google Scholar or Semantic Scholar: an **author**-level metric that measures both the productivity and citation impact of the publication. H-index should increase each year. **Helpful to have a Google Scholar page.**
 - **iCite**: Relative Citation Ratio (RCR) values, which measure the scientific influence of **each paper** by field- and time-adjusting the citation.
 - **Impact Factor (IF)**: a measure of the frequency with which the average article in a journal has been cited in a particular year. It is used to measure the importance or rank of **a journal**.
- **Publishing “peer-reviewed”** case reports, review articles, and book chapters, development of teaching materials or web site content, and clinical trials are also considered important creative activity for HS, Clinical X and Adjunct faculty members.

External letters for promotion (do not provide drafts!)

- Assistant to Associate
 - Associate to Professor
 - Professor Step V to VI
 - Professor above scale
(Distinguished Professor)
- } 4-5 external letters required
- Letters not required
- 4-5 external letters required

- At least **3 letters** must be Department-nominated, Non-conflicted
- 1-2 of them should be from **other UC campuses**.----important for CLINX!
- Your former mentors are "conflicted" forever
- Collaborators are conflicted for **4 years**.
- Candidate and department generate two independent lists. Any name that appears on both is marked as Department.
- The letter writers must be at/above rank of the proposed candidate rank.

Department/Chair/Dean Letters

- No more than three pages! Shorter is often better.
- Avoid reiterating AP-10 content or other letters.
- Role is to evaluate the context and point out the strengths and weakness, not to advocate for the candidate.
- Help CAP understand the context of the activities listed on the AP-10.
 - “Prof. X’s service on this committee was commendable because of Y”
 - “Prof. X had a heavier teaching load than normal because of Y. Normal load for the department is Z.”
- Address any negative aspects of the file, especially negative votes from department members, negative comments in the external letters, and any major negative teaching evaluations.

Conflict of Interest (COI) - Department, Chair, and Dean Letters

- **Conflict of Interest (COI):** mentor-mentee or family member (for life) co-authorship (last 48 months and pending); grant collaborations (last 48 months and pending); other relationships that a reasonable person might consider a conflict of interest
- **If CAP determines that there is a COI,** file sent back to the school with a request for a new letter:
 - **Department Letter:**
 - Conflicted member should not be the lead writer and signer.
 - If drafted by multiple faculty members, the letter should be signed by a non-conflicted writer.
 - **Chair Letter:**
 - Option 1: A non-conflicted faculty member, who did not participate in the department discussion or vote, writes a NEW letter that replaces the conflicted chair letter.
 - Option 2: Chair does not submit a letter. The original chair letter is removed from the file and chair votes with the department.
 - **Dean letter:**
 - Appoint a surrogate dean, who has not participated at other levels of review, to write and sign a NEW letter that would replace that of the conflicted dean.

I need more time!

No action (Reappointment for Assistant Professor)

- Formal review but no merit increase or promotion.
- 2 consecutive “no action” requires an Action Plan with measurable goals, and a subsequent “Progress Report”.

Stop the Clock (STC): Assistant Professor only

- Up to 2 COVID STC (faculty must have started on or before June 2022)
- 1 STC for Personal and family reasons.

Deferral: Associate and Professor only

- If your last review was positive, a merit or promotion review can be deferred for one year.

- ❖ Defer a Mid-Career Appraisal: **must** be submitted by **the end of the faculty member’s third year (by June 30)**
- ❖ Notification to “Stop the Clock” is submitted after the Mid-Career Appraisal: **must** be made **before July 1 of the academic year in which a tenure or promotion review is to occur**

Stop the Clock (STC) for Assistant Professors

- **COVID-19 Stop the Clock:**

- Applies to eligible faculty at the Assistant Professor rank, which fall under the provision of [APM 133](#)
- Faculty must have **started on or before June 30, 2022**

- **Two COVID-19 Stop the Clock:**

- An eligible faculty may only request up to two STC due to COVID-19
- In total, **a faculty may not exceed 3 Stop the Clocks at the assistant rank**
- For second COVID-19 STC, complete the [UCI AP-92 Stop the Clock Certification](#) and provide memo (no more than 1 page) with rationale for the request

- **Third Stop the Clock:**

- Eligible faculty with two Stop the Clocks (STC) previously acknowledged that are non-COVID related, who are requesting a third Stop the Clock due to the COVID-19 pandemic must provide:
 - A completed [UCI AP-92 Stop the Clock Certification](#)
 - Form should indicate that this is the third Stop the Clock request
 - Include an explanation on how the COVID-19 pandemic has impacted their work
 - The Office of Academic Personnel will manage the exceptional approval request to UC Office of the President

Should I accelerate?

Important criteria for acceleration

- There are 1-year, 2-year and/or whole step (or more) accelerations
- Faculty must be outstanding (far-above-typical accomplishments) in two out of four areas (research plus either teaching or service for senate/adjunct) and at least satisfactory in the third area
- An analytical rationale for acceleration (outstanding in which two areas?) must be included in the Department Letter!
- **UPDATE:** Review letters must indicate on which areas the acceleration is based.

Accelerations: Outstanding Contributions in Two Areas

- **Expectations in Professor Series compared to non-accelerated action at same rank/step**
 - Research/Creative Activity is a required area
 - Volume and impact twice as high, evidence of leadership
 - Service as second area
 - Volume and impact twice as high, evidence of leadership
 - Teaching/mentoring as second area
 - Volume does NOT have to be twice as high but impact does, evidence of leadership
- **If department support for acceleration is mixed: departments should have one vote on acceleration and a second vote on normative action.**

Acceleration For Senate Faculty

SOM Senate

FY20-21: ~17% went for acceleration and ~57% success rate

FY22-23: ~23% went for acceleration and ~38% success rate
(~7-8% of all files)

FY23-24: ~26% success rate

There is a higher bar required for accelerations

Acceleration for HS Faculty

Fiscal Year	# of Accelerations Requested	# of Successful Accelerations	% of successful accelerations	HS Files Reviewed
23-24	13	9	69%	~230
22-23	14	10	71%	~221

About 5% of HS files up for review went for acceleration

There is a higher bar required for accelerations

Higher ranks/steps require greater accomplishments – accelerated at Professor rank requires more than accelerating at Assistant rank

Discuss with your Chair and Promotions Committee

Can also meet with Senior Associate Dean for Faculty Development

CAP may deny promotion (or merit or acceleration), then what?

CAP tentative decisions

- As per normal process, faculty going up for promotion to Associate rank can add new materials until the final decision
- Tentative decision letters from CAP requesting additional information will continue to be optional, **not mandatory**, when there is disagreement between CAP and school recommendations
- You may accept the decision, or withdraw the file and resubmit in a following year (subject to 8y rule for Assist. Profs)
